## What's New In High Impact EMail Professional?

In this article, I will show you how to use QuickBooks for Small Business to create invoices in a PDF format. Before I start explaining the process, you need to make sure that you have installed the QuickBooks for Small Business. If you don't have it, you can go to the main menu on the left and press the option Install Now. Click Continue. You will need to use the recommended version. Now you will need to specify your location. I would suggest that you use the United States. Click Continue. You need to accept the License Agreement. Click Next. You need to enter your license key and hit Continue. It is now time to select your Accounting software. I will be using QuickBooks. I will click the Add button to add it. Enter your email address in the Email Address text box. Enter your password in the Password text box. Click Continue. Enter your Company Name in the Company Name text box. Enter your Company Address in the Company Address text box. Enter your Company City in the Company City text box. Enter your Company State in the Company State text box. Select Company Country in the Company Country text box. Select Company Tax ID in the Company Tax ID text box. Click Finish. You need to now proceed to create the first bill. Click on Bills in the menu bar on the left. Click the New Invoice button. Enter your customer name in the Customer Name text box. Enter your customer address in the Customer Address text box. Enter your customer city in the Customer City text box. Enter your customer state in the Customer State text box. Enter your customer country in the Customer Country text box. Click the New Invoice button. Enter a project code in the Project Code text box. Enter a task code in the Task Code text box. Enter the amount in the Amount text box. Enter the description of the invoice in the Description text box. Click the Create button. You will be asked to insert a signature in the PDF document. I recommend that you create a file with the name invoice.pdf on your Desktop. Click the Attach Files button. You will be asked to select a file. Enter the file in the File text box. Click the Open button. Click the OK button. You will be asked to add a signature. Click the Create button. Click the Save button. Now that you have created your first invoice, you will need to go to the next invoice. Click on Bills in the menu bar on the left. Click the New Invoice button. Enter your customer name in the Customer Name text box. Enter your customer address in the Customer Address text box. Enter your customer city in the Customer City text box. Enter your customer
